NEWPRODUCT

INFODAPTER

The INFODAPTER allows vehicle information such as climate control, parking sensor and heated seats to be displayed on any aftermarket AV head unit.

This information would usually be displayed on the original head unit and therefore would not be retained without the use of an INFODAPTER. The infodapter connects to the rear camera input and also maintains steering wheel control functionality.

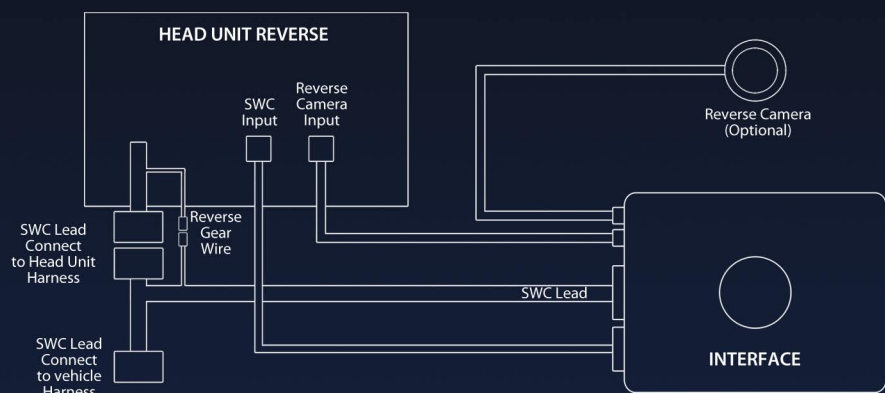

Steering Wheel Controls

Parking Assist

Climate Control

Compatible with any AV head unit with reverse camera input

ALPINE · BLAUPUNKT · SONY · clarion · LG · KENWOOD · JVC
BEAT · PHILIPS · Pioneer · Panasonic · ZENEC · BECKER
CASKA · BOSS AUDIO SYSTEMS · FlyAudio · WINCA · Freeway · skypine · SoundMax · FORYOU
