## INSTALLATION MANUAL

All installation work must be performed by a qualified professional installer only.  
The manufacturer / dealer is not liable for any kind of incidental or indirect damages.

1

1 This is how the original dashboard looks like.

2

2 Unscrew and save the 4 screws circled in Red and remove the plastic panel.

3

3 Remove the OEM facia plate as shown in the picture.

4

4 Remove the Air conditioning panel.

5 Unscrew and save the 6 screws circled in red.

6 Unscrew and save the 2 screws circled in red. Remove the keys panel. Disconnect and remove the radio from the radio tunnel

7 Fix the mounting brackets to the radio by tightening the 4 screws for side circled in red.

8 Connect all cables, verify the proper functioning of the system and install the radio in the radio tunnel by tightening the screws save previously.

9

9 Install the panels you have removed and install the fascia plate supplied in the kit.

This is the final result.

### ATTENTION!

This kit is NOT compatible with OEM touch display!
