PSA MENU SETTING

UNIKA allows you to set some functions that usually are managed with the OEM head unit . By making a simple and intuitive procedure it's possible to set functions such as:

- Hour
- Date
- Language
- General Setting

ATTENTION

MENU AVAILABILITY IS TEMPORIZED, IF NONE BUTTON IS PRESSED WITHIN 30 SECONDS, THE SYSTEM EXIT AUTOMATICALLY.
TO RESET THE SETTING FUNCTION ONCE ENDED THE MODIFICATIONS, TURN OFF THE IGNITION KEY.

How to enter the menu setting

To enter the menu setting just turn on the ignition, switch OFF the radio, then press the sequence of buttons MODE and SEEK >> twice. Once done this operation the car display will visualize the voice MENU.

Each time we will press SEEK >> button or wheel forward, we will navigate the Main Menu.

To select one of the Sub Menu press SRC button.
In the example below we visualize DISPLAY ADJUST in which we can modify hours and date.

Each time we will movement of WHEEL, we will navigate the DIPLAY ADJUST sub menu.
To select one of the sub menu voices, selected using the WHEEL.
In the example below we visualize HOUR.

Each time we will press SEEK >> button, we will increase the HOUR.
To decrease press SEEK << button.

To confirm press SRC button.

The menu selection logic is the same for all sub menu voices.
Below a simplified description.

Enter menu

Scroll Main Menu

Scroll Sub Menu

Confirm selection

Menu setting it's under time, if any button is pressed within 30 seconds the system exit automatically. To re-activate the menu just press volume +

OPEL MENU SETTING

UNIKA allows you to set some functions that usually are managed with the OEM head unit . This function was tested with ANTARA model 2009.
By making a simple and intuitive procedure it's possible to set functions such as:

- Hour
- Date
- Language
- General Setting

ATTENTION

MENU AVAILABILITY IS TEMPORIZED, IF NONE BUTTON IS PRESSED WITHIN 30 SECONDS, THE SYSTEM EXIT AUTOMATICALLY.
TO RESET THE SETTING FUNCTION ONCE ENDED THE MODIFICATIONS, TURN OFF THE IGNITION KEY.
How to enter the menu setting

To enter the menu setting just turn on the ignition, switch OFF the radio, then press the sequence of buttons ◄► and MODE twice. Once done this operation the car display will visualize the voice MENU.

Now by pressing ◄► button will be diplayed the first MENU voice CLOCK SYNC OFF.
Jump this function by pressing ◄► once again in order to display the MENU voice ↑HH↓ MM that allows to set the HOURS.

In the example it's 11 o'clock.
If we want to increase press SEEK Λ button.
If we want to decrease press SEEK V button.

Now by pressing ◄► button will be displayed the second voice of the MENU HH↑ MM↓
That allows to set the MINUTES.

In the example the minutes are 08.
If we want to increase press SEEK Λ button.
If we want to decrease press SEEK V button.

Once the HOUR setting is done by pressing the ◄► button will be displayed the MENU voice for the DATE setting DD | MM YEAR.

In the example the day is 24th.
If we want to increase press SEEK Λ button.
If we want to decrease press SEEK V button.

Once the DAY setting is done by pressing the ◄► button we will display the MENU
DD   MM YEAR that is the MONTH setting, by pressing the ◄► button again will be displayed
DD   MM | YEAR | that is the YEAR setting.
The setting are managed always with SEEK Λ button to increase or SEEK V button to decrease.

Other MENU voices are available after TIME and DATE :
IGN LOGIC OFF
LANGUAGE
To change them just press SEEK Λ or SEEK V buttons.
Once the setting is done wait the automatic exit from the MENU, then switch OFF the ignition and extract the car key.
